Prof. Dr. Jürgen Giesl
Darius Dlugosz

Functional Programming

1. **Lecture Course Schedule**

Tuesday	10:00 - 11:30	AH III
Friday	10:00 - 11:30	AH II

   Start: April 20, 2001

2. **Practical Course Schedule**

Thursday	15:45 - 17:15	AH II

   Start: April 26, 2001

3. **Exercises**

   The exercises are considered as a homework. The worksheets will be distributed on Tuesday in the lecture, at latest on Thursday in the practical course. They can also be found in a cupboard on the floor of the Informatik II Institute. Moreover, all exercises can be downloaded from an WWW server (see 6). The solutions can be handed in until the next Thursday in lecture/practical course or in room 4211. On this Thursday, the solutions of the exercises will be discussed and presented in the practical course. The reviewed worksheets will handed out in the next week.

   The correct solutions are graded with points. The points will give an overview on your own effort. To get a certificate for the practical course, you must reach at least 50% of the exercise points and most likely pass a test at the end of the course. We recommend the acquisition of this certificate, since this is an excellent preparation for the diploma examination.

4. **Haskell**

   In the lecture and exercises we present and use the functional programming language *Haskell*. The Haskell homepage with many useful informations can be found at the following web address:

   http://www.haskell.org/

   The web address to download the Haskell interpreter *hugs98* for several platforms is:

   http://www.cse.ogi.edu/PacSoft/projects/Hugs/pages/downloading.htm

   There is also the possibility to solve the programming exercises on the workstations in the workstation pool of the Computer Science Department. The Haskell interpreter is already installed there.

5. **Person Addresses**

   Prof. Dr. Jürgen Giesl
   room: 4212
   phone: 80-21230
   e-mail: giesl@informatik.rwth-aachen.de
   consultation hour: Thursday 13:00 - 14:00 and by appointment

   Darius Dlugosz
   room: 4211
   phone: 80-21241
   e-mail: darius@i2.informatik.rwth-aachen.de
   consultation hour: Monday 13:00 - 14:00 and by appointment

   Secretary Frau Ohlenforst
   room: 4213
   phone: 80-21201
   e-mail: ohlenforst@informatik.rwth-aachen.de
   opening hours: Monday - Friday 8:00 - 12:00 and 14:00 - 16:00

6. **Additional Informations**

   All worksheets, news, literature hints and other informations on this course can be found on our web server. The address is:

   http://www-i2.informatik.rwth-aachen.de/LuFGI2/Lehre/FP/index.html

   The homepage of the Lehr- und Forschungsgebiet Informatik II can be reached under the following address:

   http://www-i2.informatik.rwth-aachen.de/lufgi2.html
